CATCHES HIS ARM IN A FLY WHEEL

THOUGHT UNWISE TO REDUCE LEVY

COUNTY FARES WELL IN DIVIDE

WRITES OF HAVOC DONE BY STORM

AT LEAST TWO AMERICANS ABOARD ARABIC ARE NOT ACCOUNTED FOR

William Wilkes, Age 20, is Very Seriously Hurt in First Threshing Accident of Season.

RIGHT ARM BROKEN TWICE
His Hand Almost Torn Off at Wrist and Thumbs Badly Lacerated— Amputation May Result.

The first serious threshing accident of the season occurred late Thursday afternoon on the farm of Elmer Hutchinson, near Arlington, when William Wilkes, 20, accidentally caught his right arm in the fly wheel of the engine, sustaining injuries that will probably mean the loss of his wrist and perhaps the entire arm.

Wilkes had been employed with the threshing outfit all season, working on the separator. The engineer had trouble yesterday with the clutch slipping and Wilkes went back to the engine to see if he could not help the men. He was trying to turn the fly wheel by hand when Chester Northam started the engine. Before Wilkes could escape from the fly wheel, his right arm had been broken both above and below the elbow, the hand as almost been torn off at the wrist and the thumb badly lacerated.

Wilkes was removed to the farm house on the Hutchinson farm and his injuries treated. Dr. Sipe stated that he had hope of saving the hand, but it would be several days before he knew definitely. At first it was thought Wilkes was fatally injured. The fractures were very bad, the end of the bone protruding through the flesh.

Wilkes is the son of Mr. and Mrs. T. M. Wilkes, living on the old Posey farm, between Arlington and Homer. He was removed to his home this afternoon and apparently was resting as well as could be expected. The amputation of the wrist will not be made until after a surgeon has examined the arm.

TOURED 3 STATES WITHOUT PUNCTURE

But When Harry Clifford Reached Rushville Today he Had a Smashup With His Machine.

STEERING WHEEL LOCKED

An automobile owned and driven by Harry Clifford was considerably damaged shortly afternoon today when he was unable to control it in making the turn from East Second street, north into Perkins street. In making the turn the machine ran up on the lawn on the east side of the Daily Republican building and after going a distance of thirty feet, crashed into a tree. The left front wheel was smashed, all the spokes being knocked out, the fender damaged and one lamp badly bent.

Mr. and Mrs. Clifford and her father, Ed Rena, were returning from a tour to Kentucky and all escaped uninjured. Mr. Clifford stated following the accident that for a time the steering knuckle locked and aided by the skid the left front wheels of the machine jumped over the curb stone and crashed into the tree. Mr. Clifford toured the states of Indiana, Ohio and Kentucky and never had so much as a puncture until he reached here.

Several citizens and tax payers have been heard to express themselves as favorable to the Spivey

CITY OFFICIALS, WHILE PROBABLY FAVORING OILING FROM GENERAL FUND, OPPOSE SUGGESTION

RECEIVES BACK FROM STATE ALL BUT \$899.71 OF \$6,347 PAID IN AUTOMOBILE LICENSE FEES.

IT IS TOO FAR IN ADVANCE
They Point Out That it is Impossible to Determine Just What General Fund May Contain.

NOTICE OF SETTLEMENT
State Fund is Divided According to Miles of Free Gravel Roads and Net Registrations.

City officials do not agree with M. V. Spivey, former city treasurer, regarding the proposed reduction of the tax levy for 1916. That the tax question is a live one was shown by the interest taken in the article written by the former city official, and appearing Thursday night. A majority of the officials hold that it would be unwise to reduce the tax levy as advocated by Mr. Spivey, especially at this time.

It is pointed out that the city is just beginning to get back on its feet in a financial way and to reduce the levy would be unwise at this time. Several things enter into the discussion. The proposed budget is simply an estimate of the amount of money needed by the city to carry on the city government and in making the budget it is necessary to estimate the amount of receipts the city will receive.

Another thing that is impossible to estimate is the amount of money the city will spend for permanent improvements, such as sidewalks, sewer and water extensions. Petitions for permanent improvements are received by the council almost every meeting night and it is next to impossible to estimate the amount these will cost the city for the coming year.

Mayor Bebout stated today that he was absolutely opposed to the lowering of the tax levy at this time, but that he might consider the plan of oiling the streets as advocated by Mr. Spivey. Mayor Bebout said the city might be able to oil the streets out of the general fund, providing only one coat of oil was used.

Other members of the council said it was well enough to discuss oiling at this time but did not believe any provision should be made at this time for street oiling. The oiling, if done by the city, is paid for out of the general fund. It was pointed out that the time for discussing the oiling question is seven or eight months away and it is impossible to tell at this distance just how much money the city would have in the general fund when the time came for oiling.

One member of the council pointed out that if the city went ahead and made arrangements for oiling out of the general fund and then because of permanent improvements and other drains upon this fund, it should happen to be short, the council then could not think of doing the work. Because of the financial condition of the city, none of the other funds, it is stated, could be made out to make \$7000, the estimated cost of the oiling, and placed in the general fund.

The tax levy and budget will be passed next Tuesday night. The council is willing and glad to have expressions and suggestions. One official stated that he would favor oiling out of the general fund, providing the city had the money in the fund at the time the oiling was to be done. The work is all done on estimates and the councilmen state it is next to impossible to tell just the amount of money needed.

Mahoning Council, No. 36 will hold a regular meeting tonight. There will be work and a large attendance is desired.

BARN AND STRAW BURNS UP

Considerable Grain and Implements of C. J. Murphy Consumed.

A barn and a straw stack on the C. J. Murphy farm, north of Glenwood, burned last night shortly before midnight. The barn was practically new and was filled with grain and implements. John Linville lives on the Murphy farm. The origin of the fire is not known. Mr. Murphy who is a resident of Connersville, could not be reached today, the exact loss and amount of insurance could not be learned. Fire was visible from the traction line at Greenwood and a large number of people returning from the Connersville fair saw the fire.

HORSE STOLEN.

Sheriff Cavitt received word this morning that a gray horse was stolen from Frank Fair, near Morrisstown last night. No trace of the animal was found in this section. The horse was six years old and blind in one eye.

Mahoning Council, No. 36 will hold a regular meeting tonight. There will be work and a large attendance is desired.

NO WATER AND LIGHTS THERE

LETTER SAYS ONLY TWO BUILDINGS WERE LEFT IN TEXAS CITY, WHERE 8,000 SOLDIERS CAMPED.

Rush county will receive a total of \$5,447.29 from the state in settlement for the registration of automobiles. Deputy Treasurer Fraze has received notice from the secretary of state's office that this amount is being sent the county.

The county comes out fairly well in the settlement, losing only \$899.71 of the amount paid the state. This \$5,447.29 goes to the gravel road repair fund.

The distribution to the various counties is made on a basis of an equal distribution to the various counties is made on a basis of an equal distribution of one-third of the net receipts; one-third of the net registration from the county.

According to the statement from the secretary of state's office, Rush county has a total of 280 miles of free gravel and macadam roads. This county for the half year ending August 1 paid a total of \$6,347 to the state in registration fee. This amount, according to the records in the treasurer's office, is \$695.96 greater than for the same period last year.

The entire receipts from the state amounted to \$536,962.19. The expenses of the state in making the registration of automobiles amounted to \$36,634.40, leaving a total of \$500,327.79 for distribution among the various counties.

According to the report sent here the state has a total of 28,263 miles of free roads.

The distribution to Rush county is divided as follows:

Equal distribution of one-third of net receipts—\$1,812.78
Distribution of one-third according to number of miles of road 1,652.24
One-third net registration from county 1,982.27
Total \$5,447.29

IVY COMPANY WINS FIRST PRIZE, \$250

Uniform Rank Here Finish Ahead of All Comers in Class One at French Lick Today.

WAS FORECAST HERE THURSDAY

A United Press dispatch from French Lick this afternoon announced that Ivy Company No. 35, Uniform Rank, Knights of Pythias, of this city, had won first prize in class one at the biennial encampment of Uniform Rank of Indiana and Illinois at French Lick.

Although more enthusiastic members of Ivy Company had hoped to get within gunshot of the first position, which carried with it a prize of \$250, others were sceptic and thought Ivy Company would do well to get within the money. Ivy Company worked hard for the prize. There were more than twenty members from here at French Lick at one time this week.

The Danville, Ill., company won first prize of \$200 in class two. The Clinton, Ind., company was second in class two, winning \$150. Success company of Seymour, Ind., was third in the same class winning \$100.

WASHINGTON'S MIND IS OPEN

NOTHING WILL BE DONE IN ARABIC CASE UNTIL STATE DEPARTMENT HAS ALL THE FACTS.

DIPLOMATIC BREAK LIKELY

May be Doomed Vessel Was Not Entitled to Consideration of an Unarmed Ship.

(By United Press.)

Washington, August 20.—The Washington administration was keeping absolutely open minded today on the Arabic case. President Wilson motored unexpectedly to Philadelphia to have his eyes examined.

Nothing whatever would be done or said, it was stated until the state department has all the facts in hand. Everything possible was being done to hasten reports.

It was pointed out explanations may come which may bear materially on the situation.

The outlook was deemed very serious—so much so that there was a general hesitation to put into words what looked like the natural next development.

Word was telegraphed from Houston to the stricken city, but communications were already broken off, he said.

The letter states that Texas City, where 8,000 United States soldiers were in camp, was practically swept away. He said that Sergeant E. Meyers of Company H, who arrived at Houston from Texas City, reported that there had been a wholesale loss of life. The letter says the soldier stated the only buildings left standing in the town were the ice plant and an elevator.

The refugee stated, according to

Continued on Page 5.

Speaking personally, officials said there could be no possible doubt that the German submarine attack on the Arabic, as described in the messages thus far received, was a "deliberately unfriendly" act.

It certainly looked, it was con-

curred, as if a diplomatic break must follow if official accounts bore out the unofficial ones already received.

One thing, it was said, on high authority, was certain—

The administration will do every-

thing in its power to avoid trouble with Germany, of any kind. Not only are the administrative heads themselves opposed to war, but they believed the country is opposed to it and they will resist every tendency in that direction to the utmost.

The Arabic perhaps, was not en-

titled to consideration as an unar-

med ship. The doubt was raised by a high state department official to-

day.

A merchantman under convoy, he

said, loses its status as an unarmed vessel.

It becomes liable to submarine at-

tacks without warning.

The issue, it was said, was one

of fact—was the Arabic, though

without a convoy when attacked,

within the zone of the convoy's pro-

tection?

All accounts at the state depart-

ment today indicated that the liner

was

convoyed from port, but as

soon as its captain deemed his craft

out of danger, dropped the convoy

and proceeded on its voyage alone.

Whether the convoy was still

within sight or easy call the depart-

ment did not know. This was to be

determined and it was intimated

that the German as well as the Brit-

ish version would have to be taken

into account.

Gren Whisman, executor of the

will of Warren Whisman, deceased,

also filed exceptions to the final re-

port of the guardian of Paulina

Whisman.

The Danville, Ill., company won

first prize of \$200 in class two. The

Clinton, Ind., company was second

in class two, winning \$150. Success

company of Seymour, Ind., was third

in the same class winning \$100.

WILL WILSON ACQUIESCE?

(By United Press.)

London, August 20.—London even-

ing newspapers today devoted

their columns almost exclusively to

denunciation of the sinking of the

Arabic and to speculation on what

course America will pursue.

If President Wilson remains

quiescent under this latest outrage,

we shall despair of the United

States," said the Globe.

SIX ARE MISSING

Continued from Page 1.

accounted for in any of the lists of survivors and are believed to have been lost. They are;

Mrs. Josephine Bruguiere, New York; Dr. Edmund Wood, Janesville, Wis.

Thirty persons of other nationalities are reported missing and believed to have been drowned, making a total death list of thirty-two. Queenstown dispatches today said a revised count had shown 391 survivors landed there last night.

The American embassy began an immediate investigation. It is understood that a naval attache was dispatched to Queenstown last night. Vice consul at Queenstown will obtain affidavits from the American survivors.

Hope was practically abandoned this afternoon for Mrs. Bruguiere and Dr. Woods.

Careful search through the crowds of survivors failed to reveal either and more than twenty-four hours having elapsed since the Arabic went down, it is believed both were drowned.

MUTUAL AID IS IDEA SUGGESTED

Organization to Prevent Chautauqua Officials Getting "Stung" on Talent Takes Form.

word of the bureau representative was taken. He always insisted that an attraction was first class, had been fairly setting the tall grass on fire.

THE BEST PROOF

Given by a Rushville Citizen. Doan's Kidney Pills were used—they brought benefit.

The story was told to Rushville residents. Time has strengthened the evidence.

Has proven the result lasting. The testimony is home testimony.

The proof convincing.

It can be investigated by Rushville residents.

Harrison Levi, 931 North Sexton street, Rushville, Ind., says: "I had to get up several times at night to pass the kidney secretions, which were sometimes attended with pain. I had severe backaches, too. I finally got Doan's Kidney Pills at Johnson & Co.'s Drug Store and it did not take them long to make me well. The pains left and the action of my kidneys became regular. (Statement given June 1910.) Over two years later, Mr. Levi said: "I am still free from kidney weakness, thanks to Doan's Kidney Pills."

GERMANS CAPTURE 85,000 RUSSIANS

Take Novo Georgievsk and Continue
Triumphant March Beyond
Warsaw.

SIX GENERALS CAPTURED

(By United Press.)

Berlin, August 20.—Six Russian generals and eighty-five thousand men were captured by General Von Besseler's troops when they took Novo Georgievsk yesterday. The fortress of Novo Georgievsk is eighteen miles northwest of Warsaw.

The official statement from the war office this afternoon added that the number of captured cannon is about 700.

In the southeastern theater of war, General Mackensen is gaining ground at all points.

Red Cross Ball Blue will wash double as many clothes as any other. Always ask for Red Cross Ball Blue.

The roof has been placed on the O. M. Dale residence, which was damaged by fire this week. Fast time was made in repairing the damage.

There Is No Question

Friday, August 20, 1915.

Outlook is Dark.

Germany seems determined to provoke a break with the United States. Although circumstances may arise to change the complexion of the sinking of the Arabic from the way it appears, it must be confessed that just now the outlook is not very encouraging to the United States.

In the absence of any statement from Berlin, it may be presumed that the German imperial government will have an excuse for its continued violation not only of international law, but the laws of humanity as well.

America's last note to Germany said in no uncertain terms that acts similar to that torpedoing the Lusitania (and the Arabic seems to be a similar case) would be considered "deliberately unfriendly." The people of the United States awaited

the developments today with a certain feeling of dread. They could not feel otherwise and have the best interests of their country at heart.

An Equalizing Act.

The questions raised by M. V. Spivey, former city treasurer, concerning the 1916 tax levy are worthy the consideration of all taxpayers. His showing that by leaving the levy at \$1.15 it would be possible for the city to pay for street oiling out of the general fund brings attention to the fact that this would be a very sensible way of settling the street oiling question.

There isn't any question but that the city could oil the streets much cheaper by doing the work itself than by private contract. No one doubts but that money could be saved by applying oil only in quantities needed, based on the condition of the street and the amount of travel over it; whereas by private contract the oil is distributed equally.

Besides, where some streets may not be oiled because remonstrances prevent, if the city pays for the work out of the general fund, all streets will be oiled and their surface preserved. Examples have been noted here in Rushville where streets have been kept in much better condition since oiling became general. Oiling reduces cost of upkeep and therefore makes the expenses to the taxpayer less in the long run.

It is bad enough for the mob spirit to rule in Georgia and show its teeth in the form of a lynching, but it appears that little respect for law and order can be expected when the mayor of Atlanta stands before a body of intelligent men in San Francisco and practically condones the crime that has brought so much censure on the people of Georgia. Furthermore, a condition exists that allows the publication of details of the secret meetings previous to the lynching, at which the plans were formed, and which does not result in any investigation that brings about the apprehension of the person who was acquainted with those facts. Yet just these things have happened.

Shelbyville merchants are going to hold a few "big Wednesdays."

The Seymour chautauqua opens next Sunday. Col. Brain, the famous Kentucky orator, who has been heard here, will be one of the main attractions.

The Shelby county commissioners are considering the employment of "tax ferrets" because of persistent reports that there is a large amount of real estate in the county which has never been assessed.

The Psi Iota Xi sorority is raising a visiting nurse fund at Newcastle with which it hopes to support a visiting nurse the coming year.

Night raids by dogs caused Walter S. Pleak of Decatur county to ship 120 lambs to the Cincinnati market.

The Shelby County Council of (Women's) Clubs has a movement on foot to locate a number of flower beds in the city park.

Mrs. Elizabeth Claypool Earl of Connerville has been elected president of the American Library Association, in session at Berkley, California.

There is a chance of Muncie's fire insurance rates being raised as the result of the fire which caused the loss of a big department store there a few days ago. The fire revealed the fire fighting facilities lamentably weak.

The Milroy schools will open Monday, September 6, one week before the Rushville schools will open.

Dr. Bert Coffey will move from Andersonville to Cincinnati in the near future and take up the practice of medicine.

Senator John Worth Kern spoke to the remnant of the Eighty-third Indiana regiment at its annual re-

union in Shelbyville Thursday afternoon.

□ □

The Rev. S. G. Huntington, pastor of the Rushville First Baptist church, was chairman of the committee to appoint a nominating committee Thursday which recommended the reelection of the Rev. H. N. Spear of Shelbyville moderator of the Flatrock Baptist association, which is holding its ninety-third session at Shelbyville. J. O. Brison, of Waldron, was elected vice-moderator; Ezra Quick, of Columbus, clerk; W. G. Bentley of Greensburg, treasurer.

HOOSIER HISTORY

(Prepared for the United Press by the Centennial Department of the Indiana Historical Association)

TAXATION IN 1816

For the year in which Indiana was admitted into the Union, the tax assessments are given as follows: "For each one hundred acres of best land, the tax was one dollar. For each bondservant over twelve years of age, three dollars, thirty seven cents for each mule. For each ferry across streams, from five to twenty dollars. Town lots were assessed fifty cents; and each "pleasure carriage," with two wheels, one dollar; four wheels, one dollar and a quarter; each silver watch, twenty five cents; gold watch, fifty cents; for every billiard table, fifty dollars."

True Secret of Keeping Youthful Looking

(The Beauty Seeker.)

"The real secret of keeping young-looking and beautiful," says a well-known hygienist, "is to keep the liver and bowels normally active. Without these requisites, poisonous waste products remain in the system, polluting the blood and lodging in various organs, tissues, joints. One becomes flabby, obese, nervous, mentally sluggish, dull-eyed, wrinkled, and slow of fat."

"But to get liver and bowels working as they ought without producing evil after-effects, has been the problem. Fortunately, there is a prescription of unquestioned merit, which may now be had in convenient tablet form. Its value is due largely to an ingredient derived from the humble May apple. Its root, which has been called a vegetable calomel because of its effectiveness—though of course it is not to be classed with the real calomel of mercurial origin. There is no habit-forming constituent in 'sentinel tablets'—that's the name—and their use is not followed by weakness or exhaustion. In the contrary, the gentle, tasteless vegetable tablets tend to impart tone and elasticity to the relaxed intestinal wall. Sentinel tablets, which may be procured from any druggist—a dime's worth will do—will prove a revelation to any constipated, liver-troubled person."

Chief Cause of Pimples, Blotches, Sallow Skin

(Messenger of Health.)

Unsightly eruptions, pimples, boils, blotches, sallow or muddy skin, usually are due to a sluggish liver, a constipated bowel—and a polluted blood stream as a consequence. How foolish in such cases to resort to outward applications, which can never have natural, permanent results. If one people only knew it, the use is a very simple remedy to be found in any drug store, which is as effective as it is harmless and quick acting. It is an old formula, long recognized by the medical profession, which has been put in tablet form, and at such small cost no one need now be deprived of its wonderful benefits."

"Sentinel tablets"—that's the name—are entirely vegetable and there's no habit-forming ingredient. You need only get about a dime's worth, and swallow one at bedtime to realize there's nothing else quite so good for the purpose. The action in the morning is so easy, so soothing, and instead of a weakening after-taste, you're truly refreshed and invigorated. Sentinel tablets are not only the finest remedy known for constipation and torpid liver, but offer the sanest, most sensible treatment for complexion difficulties of the character mentioned.

Great Demand for New Constipation Remedy

They say that the advent of the "sentinel tablet" as a vegetable substitute for calomel has resulted in an extraordinary and most remarkable effect. It seems to have made a hit particularly with those afflicted with chronic constipation, who were quick to recognize its advantages over calomel and the usual laxatives.

Sentinel tablets, aside from their effects, doubtless owe their success largely to a tendency to aid in restoring a natural functioning—instead of encouraging the "cathartic habit." Also, instead of injuring the membranous lining of the organs involved, they exert a healing influence.

Instead of weakening, they exert a tone to the intestinal wall. And they work so easily and gently, they're of course preferred on this account to the violently acting purgatives. Their inexpensiveness is another reason for the popularity of sentinel tablets. One need procure only a dime's worth, and take one tablet upon retiring, to be convinced that the ideal remedy for constipation, torpid liver, and their many evil consequences, has finally been found.—Drugists Review.

ARE FAILURES AS MANAGERS

Democrats Prove it Because Three Laws to Raise Money Did Not Produce Enough.

CARELESS METHODS USED

Method of Appropriation Employed is Admission of Inefficiency, it is Declared.

Washington, August 20.—As business managers the Democrats have been a conspicuous failure.

It has already been shown that the three laws the last Congress enacted to raise money, namely the tariff, income tax, and "war tax" laws, each failed to produce the amount needed.

A study of the record of laws enacted to spend money shows that careless methods of appropriation insured wasteful expenditure.

Examine the history of appropriation bills during the time the Democratic House has handled them, and you find that fifteen regular appropriation bills have failed to pass before the necessary date, and that fifteen times a resolution extending the appropriation of the previous year had to be passed.

This method of appropriation is an admission of incompetency and inefficiency in itself. It causes a tremendous financial loss in the work of every department of government. It complicates accounts, hinders the making of plans in advance, prevents the execution of contracts for necessary work, and prevents allotting funds equitably for the different seasons of the year.

A member of the present cabinet, Secretary of Commerce William C. Redfield, severely criticised Congress for this kind of extravagance in his last annual report.

"Finally, money loss arises from failure to make appropriation in time to keep work of the government moving," said Secretary Redfield. "The serious results of these latter losses are probably not appreciated. They undoubtedly amount to more than some of the economies thought to be effected by clipping estimates."

In this connection it should not be overlooked that during the 16 years of Republican control preceding the present administration, the appropriation bills were invariably assed before they were needed, and an extension resolution was never resorted to.

Two of this year's great supply bills, one appropriating funds for the Post Office Department and the other for the Indian Bureau, failed in the Indian Bureau, failed of passage last March. All the work of preparing estimates, planning new projects, and the intelligent continuation of former works has been absolutely wasted by the failure of these bills. The affairs of those two branches of government must now be conducted under plans nearly two years old which are absolutely foreign to conditions at the present time. A tremendous waste of time and money is inevitable, and the service that should be rendered to the public will be seriously impaired.

Examples of some of the disastrous effects these slovenly methods have had upon various branches of governmental work will be cited in articles to follow.

M'FARLAND TO TRY 'COME BACK'

Packey Will Have Plenty to do if he Makes Good Showing Against Mike Gibbons

WORKING FOR THREE THINGS

One of These Naturally is The \$17,500 Purse, Guaranteed, Win Lose or Draw

BY GEORGE R. HOLMES
(U. P. Staff Correspondent.)

New York, Aug. 20.—Packey McFarland has a lot to fight for when he steps into the ring with Mike Gibbons, the St. Paul wraith, on the night of Sept. 11. He will be battling for three things, for any one of which the majority of boxers nowadays would be willing to have their roofs caved in.

First—There is the \$17,500 which becomes his property the minute he slips from his bathrobe and steps onto the resin.

Second—There is the almost certainty that he will be accorded the middleweight championship by popular acclaim if he wins.

Third—There is the glory, if he wins, of being the only boxer of his kind in the world—a boxer who after long absence from the ring came back and defeated a man who was admittedly the best of his class in the country; in short a "come-back."

Some purse! Aye, Aye.

Jim Corbett and Jim Jeffries tried to come back after several years' absence. So did a lot of others. And they all got the same thing—an epitaph on their pugilistic tombstone which gave the information that he had been a great fighter in his day.

Packey left the ring weighing around 137 and 138—his best fighting weight. In his two years of running breweries and automobiles he has added probably 20 pounds. He only wants 10 of it off. That is going to leave 10 there that can be said to be an accumulation of two years' idleness. He doesn't need it, and before he has stepped thirty minutes with a man as shifty as Mike Gibbons, is, it's a safe bet he's going to wish he didn't have it.

Veteran ring men can't see Packey's chances at all. They base their assertion that the Stockyards wonder is in for a lacing on the fact that no boxer ever has come back, and on the fact that Packey hasn't been boxing very much in the past two years, whereas the Shadowlike Mike has been fighting pretty steadily in that time.

"A man can't fight unless he's been fighting," said an old ring man today. "It doesn't take two years for a man to lose his judgement of distance and his hitting eye when he's not in the ring. Didn't I sit in Carson City and see Bob Fitzimmons put the old smack on Jim Corbett, simply because Fitz had been fighting for two years steadily where Jim had been idling? Fitz's condition wasn't any better than Jim's, but his eyes were."

"Again, Packey is going to meet a man in Mike who is at the zenith of his power. The St. Paul lad has been coming up for six years and he's now at the top of his career. Packey was at the top of his when he left the ring.

"Yes, we'll admit that Packey has lived a mighty clean life. He hasn't boozed nor smoked nor any of that stuff. Neither have a lot of other young chaps, but they couldn't stand 10 rounds of Mike Gibbons' game at that.

"But she's going to be a bird of a scrap anyhow, ain't she?"

That's what all New York thinks that "she's going to be a bird of a scrap."

CRACK DRIVERS IN ELGIN RACES

Ralph De Palma, Twice Champion is Again The Favorite—Plenty of "Dark Horses"

CHICAGO CLUB EVENT TODAY

Course Has Been Practically Rebuilt Although The Hills Remain Giving Variety

COOPER LEADS AT 100.
(By United Press.)

New York, Aug. 20.—Packey McFarland has a lot to fight for when he steps into the ring with Mike Gibbons, the St. Paul wraith, on the night of Sept. 11. He will be battling for three things, for any one of which the majority of boxers nowadays would be willing to have their roofs caved in.

Elgin, Ill., Aug. 20.—With a bunch of crack drivers bursting with confidence and several "dark horses" out to make a rep, Starter Fred Wagner got the first of the annual Elgin Auto Road Races under way promptly at 11 a. m. today over Elgin's famous eight mile circuit.

The races which have gathered together road champions of former years, are considered the country's class of road races.

Ralph De Palma, twice road champion, is favored to cop again, if he has an even break of luck. He will be given a close run for the prizes by Earl Cooper and Ralph Mulford, road champs in 1913 and 1910 respectively, are entered and expect to win.

For the first time in auto racing history, "also rans" will have a chance to come in on the money. To every driver finishing 100 miles will be given \$100 and \$200 to every driver finishing 200 miles. The distance to be run is 301 miles. Today's race is for a purse of \$3,000 and a cup trophy offered by the Chicago Automobile club, under whose auspices the race is being held.

Tomorrow's race will be for the Elgin cup and a \$3,000 purse with the same chance for drivers picking up some of the odd change for finishing distances. This race will also be for 301 miles.

An air flight was given preceding today's race by De Lloyd Thompson.

One of the features at the races will be the monster Pendleton score board. Forty four assistants, including telephone girls, are required to keep spectators informed as to positions of cars during the races.

The course has practically been rebuilt around the entire circuit; although the slight hills and contours have been leveled to give variety and make it a true road race.

HORSE WINS TWICE IN AS MANY DAYS

Frank Lindsay Performs Remarkable Feat With Diumeter at Connersville Fair.

OTHER HORSES IN THE WIN

Rushville drivers and horses did fairly well at the Connersville fair yesterday. Frank Lindsay, driving Diumeter, came back yesterday after driving the horse to first money the day before and won the 2:30 pace.

Lindsay won the race in straight heats, the best time being 2:17½ in the second heat. Lindsay's feat was considered remarkable in view of the fact that the horse had won the day before.

Mary Minerva, owned by John Frazier, won third money in the 2:30 pace and Lady Hyatt, driven by Everett Piper won fourth place in the same race.

A large crowd of Rushville and Rush county people attended the fair there yesterday. The Indianapolis and Cincinnati traction company carried between 900 and 1,000 people from this city and the agent at Glenwood sold 500 tickets. The crowd going by traction from this city was not as large as last year by 500 according to local officials.

MYERS COMES IN FOR HIS SHARE

Now Known as Most Popular Athlete at De Pauw University—is Wonderful Runner

HOLES CONFERENCE RECORD

Latest Accomplishments Was to Finish Third in A. A. U. Meet at San Francisco

(By United Press.)

Greencastle, Ind., Aug. 20.—When De Pauw university opens in September the athletic stars of the Methodist school will have their popularity dimmed by a little fellow who entered three years ago unknown and unsought among the freshman group. He was not an athlete in looks, being only five feet six inches tall, lean and lank and narrow chested. Today this "little fellow" is probably the greatest athlete De Pauw ever produced. He is Ivan Myers, conference champion in the mile, and winner of third place in the same event in the athletic games at the San Francisco exposition this summer in competition with the best athletes in America.

Myers he is known as "Ikey" here—is no more athletic looking than when he entered but he has produced the gods on the cinder path. The life history of few athletes is more interesting. Myers was born and raised at Carmel, Ind., though his parents now live at Garrett. While in high school Myers was interested in athletics but not accounted a star even in his own high school. His favorite event was the quarter mile but on account of illness during his senior year he never even got an opportunity to show his speed in the state meet. For that reason he was not sought by the colleges of the state.

Not until in an inter-organization track meet near the close of his freshman years was Myers known to the coaches. Competing with the star men of the varsity he outlined them all and brought himself into notice as an athlete worth watching.

In his second year at College Myers was entered in a number of the Secondary College meets in Indiana and was not defeated but still he was not considered fast enough for the classy company of the big nine schools.

When John Nicholson, former Olympic man, came to DePauw last spring as coach, he saw hidden possibilities in the little blond runner and entered him in the dual meet with Wabash college. The Presbyterians were considered as having some rather speedy distance men but Myers ran away from the whole field in the half mile, mile, and two miles and then trotted to the gymnasium five squares away.

It was in the state meet that the De Pauw star got into the athletic limelight. Competing with the crack runners of Purdue, Notre Dame, and Indiana, he won first in the mile, and half mile, breaking the state record in the former.

The next step in the athletic career of Myers was at Champaign, Ill., in the Western Conference meet when he set a new mark in the mile and took second in the half mile, thereby placing his comparatively small school in sixth place in the meet.

The latest accomplishment of the long unknown runner was in the A. A. U. championship meet at San Francisco, when under the colors of the Illinois Athletic Club, he won third place in the mile run.

The latest accomplishment of the long unknown runner was in the A. A. U. championship meet at San Francisco, when under the colors of the Illinois Athletic Club, he won third place in the mile run.

BIG CORSET SALE

A very exceptional purchase of Corsets has been unpacked on our second floor. Every one is fresh and crisp from the manufacturer's hands and embodies all the very latest details in corset building. There are three different models at three different prices, and you are sure to find the kind you want. We urge you to avail yourself of this chance to save.

Model 1.—A splendid corset for the money, of good material, with 5 clasps and 4 good supporters. All sizes from 19 to 30. Easily worth 50c, now **39c**

Model 2.—An excellent model, embodying neat appearance and good service. Has 5 clasps and 4 supporters, and is guaranteed not to rust. All sizes from 20 to 30. Sold by many dealers at \$1.00, now **49c**

Model 3.—A Reducing Corset of real worth, with non-rustable duplex boning and 6 supporters. Every size from 28 to 34. You have often paid \$1.50 for a corset no better, now **98c**

THE MAUZY CO.

M

FUNERAL WILL BE HELD HERE

Last Sad Rites to be Performed Over Body of John C. Ochiltree, Magazine Writer.

DIES AT HOME IN DAYTON, O.

Boyhood Home Was in Glenwood Neighborhood—Formerly Connerville Editor.

The funeral services of John C. Ochiltree, who died yesterday at his home in Dayton, Ohio, will be conducted tomorrow morning at the chapel at East Hill cemetery by the Rev. V. W. Tevis. The remains will arrive Saturday morning at 10:45 o'clock over the C. H. & D., and will be taken directly to East Hill cemetery.

Mr. Ochiltree was a native of Fayette county and was formerly editor of the Connerville Times. He is remembered here by many people. Mr. Ochiltree was seventy years of age. His boyhood was spent in the Glenwood neighborhood and he received his early education in the schools of the township. In his boyhood a thirst for reading was characteristic, and as he grew his uncommonly brilliant mind unfolded and grasped the wider education which no school can give. He was married to Miss Lydia Davis, of Glenwood. One son, Paul, now in the Dayton postoffice, was born to them. His mother died many years ago. Later Mr. Ochiltree was married to Miss Nora Knight, of Marion, Indiana. Two daughters were born to the second union. They, their mother, and many relatives besides are left. Dr. S. N. Hamilton and W. E. Ochiltree and Calvin Ochiltree, of Connerville, are cousins.

Deceased taught school in his earlier life. His first editorial service was with the Connerville Times, which, in partnership with the late A. M. Sinks, he owned and managed. Later he was connected with the Indianapolis Herald, next with the Hendricks County Republican, then with the Anderson Herald, and finally with the Dayton Press. Since going to Dayton, years ago, he has served a number of high secretaries, and for years had been a frequent contributor to editorial columns and standard magazines.

The death of Mr. Ochiltree removes a very interesting man, in the restricted meaning of that expression. A distinctive mind, an amiable heart, a splendid gift in conversation, and an energy which kept him forever fresh and young. He was a man whom his friends loved deeply, and whose friends were many. His health had declined for about one year, and for the last six months he had seldom left his home.

THOUGHT UNWISE TO REDUCE LEVY

Continued from Page 1.

plan. According to the argument advanced by Mr. Spivey, the taxpayer when he gets through paying for his oiling has been assessed as much as \$1.65 on each \$100 of taxables in some cases. Some have suggested that the council might increase the levy five cents more and thus insure the oiling out of the general fund.

J. P. Stetchi city treasurer, today had the following to say regarding the proposed tax levy for 1916:

"I noticed the article in yesterday's issue by former City Treasurer Spivey regarding the 1916 tax levy. I believe the interests of the property owners and taxpayers can best be served by leaving the tax levy at \$1.15 per \$100 and pay for oiling out of the general fund."

"My reasons for saying so are: first, the cost of oiling will be from two to three thousand dollars less than under the present method; second, the oiling could be done more satisfactorily to the city, as under the present method the contract

calls for a certain amount of oil for each square yard. Now, there are some streets that need less oil than others, but under the contract system there can be no more put on one street than on another. With the city doing the work, the amount of oil required for each street or part of street could be put on and over the streets in a more satisfactory condition; third, the cost of preparing plans and specifications, engineer's cost and costs of collection would be eliminated."

With The Churches

+Regular services at St. Mary's Catholic church, conducted by the Rev. M. W. Lyons. Masses at 7:00 and 9:00 a.m.

+There will be preaching every and Sunday school at 9:30 o'clock. Sunday at the Glenwood M. E. church. Morning services at 10:30 o'clock, evening services at 7 o'clock.

+The usual services will be held Sunday at the First Baptist church. The morning subject will be "Obligation of Preaching," in the evening, the topic will be "Two Sons." Both sermons will be delivered by the pastor, Rev. S. G. Huntington.

+St. Paul's Methodist Episcopal church, A. D. Batchelor, pastor. Combined services of the Sunday School and morning worship at 10 o'clock. The pastor will make the usual talk. Subject, "Some Christian Compensations." The pastor will also preach at 7:30 p.m. Subject of sermon, "Four Essential Steps." Mid-week meeting for prayer and Bible study Thursday, 7:30 p.m. Subject, "The Mystery of the Ages." Reference, Ephesians iii:1-13.

+There will be no preaching services at the United Presbyterian church Sabbath on account of Dr. Jamieson's absence. Sabbath school will commence one half hour earlier at 9:30. Prayer meeting Thursday, 7:30 p.m.

+The regular services will be conducted Sunday at the Main Street Christian church Prof. C. E. Burns will preach both morning and evening. The subject of the morning sermon is "The Disappointing Christ" and in the evening "The Sin of Worry." Bible school at 9:15 a.m. and the public is cordially invited to all services.

CATCHES HIS ARM THOUGHT UNWISE IN A FLY WHEEL

William Wilkes, Age 20, is Very Seriously Hurt in First Threshing Accident of Season.

RIGHT ARM BROKEN TWICE

His Hand Almost Torn Off at Wrist and Thumbs Badly Lacerated—Amputation May Result.

The first serious threshing accident of the season occurred late Thursday afternoon on the farm of Elmer Hutchinson, near Arlington, when William Wilkes, 20, accidentally caught his right arm in the fly wheel of the engine, sustaining injuries that will probably mean the loss of his wrist and perhaps the entire arm.

Wilkes had been employed with the threshing outfit all season, working on the separator. The engineer had trouble yesterday with the clutch slipping and Wilkes went back to the engine to see if he could not help the men. He was trying to turn the fly wheel by hand when Chester Northam started the engine. Before Wilkes could escape the fly wheel, his right arm had been broken both above and below the elbow, the hand as almost been torn off at the wrist and the thumb badly lacerated.

Wilkes was removed to the farm house on the Hutchinson farm and his injuries treated. Dr. Sipe stated that he had hope of saving the hand, but it would be several days before he knew definitely. At first it was thought Wilkes was fatally injured. The fractures were very bad, the end of the bone protruding through the flesh.

Wilkes is the son of Mr. and Mrs.

T. M. Wilkes, living on the old Posey farm, between Arlington and Homer. He was removed to his home this afternoon and apparently was resting as well as could be expected. The amputation of the wrist will not be made until after a surgeon has examined the arm.

TOURED 3 STATES WITHOUT PUNCTURE

But When Harry Clifford Reached Rushville Today he Had a Smashup With His Machine.

STEERING WHEEL LOCKED

An automobile owned and driven by Harry Clifford was considerably damaged shortly afternoon today when he was unable to control it in making the turn from East Second street, north into Perkins street. In making the turn the machine ran up on the lawn on the east side of the Daily Republican building and after going a distance of thirty feet, crashed into a tree. The left front wheel was smashed, all the spokes being knocked out, the fender damaged and one lamp badly bent.

Mr. and Mrs. Clifford and her father, Ed Rena, were returning from a tour to Kentucky and all escaped uninjured. Mr. Clifford stated following the accident that for a time the steering knuckle locked and aided by the skid the left front wheels of the machine jumped over the curb stone and crashed into the tree. Mr. Clifford toured the states of Indiana, Ohio and Kentucky and never had so much as a puncture until he reached here.

Several citizens and tax payers have been heard to express themselves as favorable to the Spivey.

THOUGHT UNWISE TO REDUCE LEVY

City Officials, While Probably Favoring Oiling From General Fund, Oppose Suggestion

IT IS TOO FAR IN ADVANCE

They Point Out That it is Impossible to Determine Just What General Fund May Contain.

City officials do not agree with M. V. Spivey, former city treasurer, regarding the proposed reduction of the tax levy for 1916. That the tax question is a live one was shown by the interest taken in the article written by the former city official, and appearing Thursday night. A majority of the officials hold that it would be unwise to reduce the tax levy as advocated by Mr. Spivey, especially at this time.

It is pointed out that the city is just beginning to get back on its feet in a financial way and to reduce the levy would be unwise at this time. Several things enter into the discussion. The proposed budget is simply an estimate of the amount of money needed by the city to carry on the city government and in making the budget it is necessary to estimate the amount of receipts the city will receive.

Another thing that is impossible to estimate is the amount of money the city will spend for permanent improvements, such as sidewalks, sewer and water extensions. Petitions for permanent improvements are received by the council almost every meeting night and it is next to impossible to estimate the amount these will cost the city for the coming year.

Mayor Bebout stated today that he was absolutely opposed to the lowering of the tax levy at this time, but that he might consider the plan of oiling the streets as advocated by Mr. Spivey. Mayor Bebout said the city might be able to oil the streets out of the general fund, providing only one coat of oil was used.

Other members of the council said it was well enough to discuss oiling at this time but did not believe any provision should be made at this time for street oiling. The oiling, if done by the city, is paid for out of the general fund. It was pointed out that the time for discussing the oiling question is seven or eight months away and it is impossible to tell at this distance just how much money the city would have in the general fund when the time came for oiling.

One member of the council pointed out that if the city went ahead and made arrangements for oiling out of the general fund and then because of permanent improvements and other drains upon this fund, it should happen to be short, the council then could not think of doing the work. Because of the financial condition of the city, none of the other funds, it is stated, could be made out to make \$7000, the estimated cost of the oiling, and placed in the general fund.

The tax levy and budget will be passed next Tuesday night. The council is willing and glad to have expressions and suggestions. One official stated that he would favor oiling out of the general fund, providing the city had the money in the fund at the time the oiling was to be done. The work is all done on estimates and the councilmen state it is next to impossible to tell just the amount of money needed.

Several citizens and tax payers have been heard to express themselves as favorable to the Spivey.

COUNTY FARES WELL IN DIVIDE

Receives Back From State All But \$899.71 of \$6,347 Paid in Automobile License Fees.

NOTICE OF SETTLEMENT

State Fund is Divided, According to Miles of Free Gravel Roads and Net Registrations.

Rush county will receive a total of \$6,447.29 from the state in settlement for the registration of automobiles. Deputy Treasurer Frazer has received notice from the secretary of state's office that this amount is being sent the county.

The county comes out fairly well in the settlement, losing only \$899.71 of the amount paid the state. This \$5,447.29 goes to the gravel road repair fund. The distribution to the various counties is made on a basis of an equal distribution to the various counties is made on a basis of an equal distribution of one-third of the net receipts; one-third of the net registration from the county.

According to the statement from the secretary of state's office, Rush county has a total of 280 miles of free gravel and macadam roads. This county for the half year ending August 1 paid a total of \$6,347 to the state in registration fee. This amount, according to the records in the treasurer's office, is \$695.96 greater than for the same period last year.

The entire receipts from the state amounted to \$536,962.19. The expenses of the state in making the registration of automobiles amounted to \$36,634.40, leaving a total of \$500,327.79 for distribution among the various counties.

According to the report sent here the state has a total of 28,263 miles of free roads.

The distribution to Rush county is divided as follows:

Equal distribution of one-third of net receipts.....	\$1,812.78
Distribution of one-third according to number of miles of road.....	1,652.24
One-third net registration from county.....	1,982.27
Total.....	\$5,447.29

The refugee stated, according to

WRITES OF HAVOC DONE BY STORM

John Wilkinson, Rushville boy, now of Houston, Texas, Tells of Damage by Hurricane.

NO WATER AND LIGHTS THERE

Letter Says Only Two Buildings Were Left in Texas City, Where 8,000 Soldiers Camped.

By the light of a candle, John Wilkinson, son of Mr. and Mrs. A. W. Wilkinson, writes from Houston, Texas of the damage done there by the hurricane which has caused millions of dollars worth of damage and cost many lives. Mr. Wilkinson went to Texas several months ago and is employed by the Texas Bread company of Houston.

The letter was dated Thursday, August 19, and gives a graphic description of the damage done in that section. It says that when the heavy wind came down from the north last Monday, no one thought anything of it. In half an hour, the letter states, newspaper extras were issued stating that a heavy storm would sweep that section of Texas.

About four-thirty the storm began, the Rushville boy writes. He worked all night Monday night and witnessed the storm. When the wind had devastated Houston, it changed and came up from the south. On the instant, he said, the cry was on everyone's lips, "What will become of Galveston?"

Word was telegraphed from Houston to the stricken city, but communications were already broken off, he said.

The letter states that Texas City, where 8,000 United States soldiers were in camp, was practically swept away. He said that Sergeant E. Meyers of Company II, who arrived at Houston from Texas City, reported that there had been a wholesale loss of life. The letter says the soldier stated the only buildings left standing in the town were the ice plant and an elevator.

The refugee stated, according to

Continued on Page 3.

AT LEAST TWO AMERICANS ABOARD ARABIC ARE NOT ACCOUNTED FOR

WASHINGTON'S MIND IS OPEN

Nothing Will be Done in Arabic Case Until State Department Has All the Facts.

DIPLOMATIC BREAK LIKELY

May be Doomed Vessel Was Not Entitled to Consideration of an Unarmed Ship.

(By United Press.) Washington, August 20.—The Washington administration was keeping absolutely open minded today on the Arabic case. President Wilson motored unexpectedly to Philadelphia to have his eyes examined.

Nothing whatever would be done or said, it was stated until the state department has all the facts in hand. Everything possible was being done to hasten reports.

It was pointed out explanations may come which may bear materially on the situation.

The outlook was deemed very serious—so much so that there was a general hesitation to put into words what looked like the natural next development.

Speaking personally, officials said there could be no possible doubt that the German submarine attack on the Arabic, as described in the messages thus far received, was a "deliberately unfriendly" act.

It certainly looked, it was conceded, as if a diplomatic break must follow if official accounts bore out the unofficial ones already received.

One thing, it was said, on high authority, was certain—

The administration will do everything in its power to avoid trouble with Germany, of any kind. Not only are the administrative heads themselves opposed to war, but they believed the country is opposed to it and they will resist every tendency in that direction to the utmost.

The Arabic perhaps, was not entitled to consideration as an unarmed ship. The doubt was raised by a high state department official today.

A merchantman under convoy, he said, loses its status as an unarmed vessel.

It becomes liable to submarine attacks without warning.

The issue, it was said, was one of fact—was the Arabic, though without a convoy when attacked, within the zone of the convoy's protection?

All accounts at the state department today indicated that the liner was convoyed from port—but as soon as its captain deemed his craft out of danger, dropped the convoy and proceeded on its voyage alone.

Whether the convoy was still within sight or easy call the department did not know. This was to be determined and it was intimated that the German as well as the British version would have to be taken into account.

Gren Whisman, executor of the will of Warren Whisman, deceased, also filed exceptions to the final report of the guardian of Paulina Whisman. The defendants named in the suit are Alonzo Whisman, George Whisman, James Whisman, Miller Miller, Ida Wigener and Alonzo Whisman, guardian of Paulina Whisman.

If President Wilson remains quiescent under this latest outrage, we shall despair of the United States," said the *Globe*.

The *Pall Mall Gazette* said there was no question but that the attack of the Arabic was what President Wilson described as an act "deliberately unfriendly."

FROST REPORTS SIX ARE MISSING

American Consul at Queenstown Says Four Other American Passengers Can't be Found.

DENIED BY WHITE STAR LINE

New York Offices State That Through an Error One Name is Omitted, Making Three Lost.

(By United Press.) London, August 20.—Consul Frost at Queenstown this afternoon reported to the American embassy that four more Americans, in addition to the two already noted, are missing from the Arabic disaster. They are:

Mr. and Mrs. Burgess, J. K. Kellett, Miss T. Moore.

Lists given out by the White Star line today named Mr. and Mrs. Fred Burgess among the survivors and news agency dispatches reported J. Kellett saved, though no additional confirmation has been received. No passengers list or list of survivors has carried the name of Miss T. Moore.

(By United Press.)

London, August 20.—Officers of the White Star Line this evening said that despite Consul Frost's report from Queenstown to the American embassy, they have information that only two Americans perished when the Arabic was sunk.

(By United Press.)

New York, August 20.—White Star officers at 3:05 this afternoon stated that through an error W. E. Randall, an American, was included in the list of survivors whereas Randall is still missing. This makes three Americans unaccounted for, according to lists at the offices here.

(By United Press.) London, Aug. 20.—Consul Frost at Queenstown reported to the American embassy today that all American survivors are unanimous in their declaration that the Arabic was torpedoed without warning.

Two Americans of the 29 known to have been aboard the White Star liner when she was torpedoed and sunk yesterday were today an-

IVY COMPANY WINS FIRST PRIZE, \$250

Uniform Rank Here Finish Ahead of

All Comers in Class One at

French Lick Today.

WAS FORECAST HERE THURSDAY

A United Press dispatch from French Lick this afternoon announced that Ivy Company No. 35, Uniform Rank, Knights of Pythias, of this city, had won first prize in class one at the biennial encampment of Uniform Rank of Indiana and Illinois at French Lick.

Although more enthusiastic mem-

bers of Ivy Company had hoped to

get within gunshot of the first position,

which carried with it a prize of \$250, others were sceptic and thought Ivy Company would do well

to get within the money. Ivy Com-

pany worked hard for the prize.

There were more than twenty mem-

bers from here at French Lick at one

time this week.

The Danville, Ill., company won

first prize of \$200 in class two. The

Clinton, Ind., company was second

in class two, winning \$150. Success

company of Seymour, Ind., was third

in the same class winning \$100.

HORSE STOLEN.

Sheriff Cavitt received word this morning that a gray horse was stolen from Frank Fair, near Morris-ton last night. No trace of the animal was found in this section. The horse was six years old and blind in one eye.

Mahoning Council, No. 36 will hold a regular meeting tonight.

There will be work and a large at-

tendance is desired.

DEVOTE SPACE TO ARABIC COMMENT

London Newspapers Today De-nounce Germany For This La-test Outrage Against Humanity.

WILL WILSON ACQUIESCE?

(By United Press.) London, August 20.—London evening newspapers today devoted their columns almost exclusively to denunciation of the sinking of the Arabic and to speculation on what course America will pursue.

"If President Wilson remains quiescent under this latest outrage, we shall despair of the United States," said the *Globe*.

FROST REPORTS SIX ARE MISSING

Continued from Page 1.
accounted for in any of the lists of survivors and are believed to have been lost. They are;

Mrs. Josephine Bruguiere, New York; Dr. Edmund Wood, Janesville, Wis.

Thirty persons of other nationalities are reported missing and believed to have been drowned, making a total death list of thirty-two. Queenstown dispatches today said a revised count had shown 391 survivors landed there last night.

The American embassy began an immediate investigation. It is understood that a naval attaché was dispatched to Queenstown last night. Vice consul at Queenstown will obtain affidavits from the American survivors.

Hope was practically abandoned this afternoon for Mrs. Bruguiere and Dr. Woods.

Careful search through the crowds of survivors failed to reveal either and more than twenty-four hours having elapsed since the American went down, it is believed both were drowned.

MUTUAL AID IS IDEASUGGESTED

Organization to Prevent Chautauqua Officials Getting "Stung" on Talent Takes Form.

GET BENEFIT OF EXPERIENCE

Talent Committee Would Not Need to Take Word of Bureau Representative All Together.

As a further method of co-operation, backing up the plan made known yesterday that the Rushville, Shelbyville and Columbus chautauquas would probably buy together talent acceptable to all three, the Columbus Republican comes forward with a story that the independent chautauquas of the state may have a sort of rating organization among themselves to get a line on the real value of talent.

The Columbus Republican suggests that it be called "The Society for the Prevention of Getting Stung" and declares that such an organization is taking form throughout this section of Indiana, bounded on the east by Richmond and the west by Rockville.

The Republican's story reveals that the experience of the talent committee at Columbus has been the same as that of the talent committee here. The new organization contemplated that the work of the committee take the form of a confidential exchange of reports on talents, so that a poor attraction can be tagged and placed on the shelf without any other Chautauqua going against it for another year. In this way each of the Chautauqua associations hopes to be able to buy talent for next year that gave universal satisfaction this year. Where a report comes in that an attraction was unsatisfactory from one cause or another the program committees will fight shy of that attraction no matter how much boasting the bureau representatives may give it.

In buying a Chautauqua program the Chautauqua officials have to rely to a considerable extent on the truth and veracity of the bureau representative who has the attraction to sell. The general custom is for the officials to name a time when they will consider talent for the next year, the time usually being shortly after the current Chautauqua is over, because these attractions usually are booked for fully a year in advance. The bureaus selling attractions are notified and they send their men.

With these men selling talent is a business proposition, just the same as selling shoes or calico. They throw down before the committee big batch of handsome looking lithographs setting forth the sterling qualities of Senator Blank or Mme. So and So. To hear the bureau men talk about the matter, the Senator has charmed more audiences than any other orator in lyceum work, while Mme. So and So has the sweetest voice in grand opera. They flip over the folders issued to advertise these attractions and on the reverse side are oodles of press notices—all of them favorable. Personal words of commendation from preachers, school superintendents, college professors, Chautauqua managers and the like are profuse.

The members of the committee come to the conclusion that they are missing something great if they do not buy the Senator; so they sign a contract for him. They advertise him throughout the community, brag about what a big attraction they have, and make all preparations for his coming. And by and by the time rolls around for him to appear. He appears, makes an address that pleases about six people out of an audience of 1,500 or 2,000, gets his money and keeps on doing the same thing over again. The committee catches the roasting and numerous people assert that the committee knew the Senator couldn't make a speech when it bought him.

This is the way in which most Chautauqua attractions have been booked in the past. Where definite information was lacking the

word of the committee repudiated the statement. He always insisted that an attraction was first rate, even though it was fairly getting the tall grass on fire.

The story was told to Rushville residents.

Time has strengthened the evidence.

Has proven the result lasting.

The testimony is home testimony.

The proof convincing.

It can be investigated by Rushville residents.

Harrison Levi, 931 North Sexton street, Rushville, Ind., says: "I

had to get up several times at night to pass the kidney secretions, which were sometimes attended with pain.

I had severe backaches, too. I finally got Doan's Kidney Pills at Johnson & Co.'s Drug Store and it did not take them long to make me well. The pains left and the action of my kidneys became regular.

(Statement given June 1910.)

Over two years later, Mr. Levi

said: "I am still free from kidney weakness, thanks to Doan's Kidney Pills."

Packey Will Have Plenty to do if he
Makes Good Showing Against
Mike Gibbons

WORKING FOR THREE THINGS

One of These Naturally is The \$17,-
500 Purse, Guaranteed, Win
Lose or Draw

BY GEORGE R. HOLMES
(U. S. Staff Correspondent.)

New York, Aug. 20.—Packey McFarland has a lot to fight for when he steps into the ring with Mike Gibbons, the St. Paul writh, on the night of Sept. 11. He will be battling for three things, for any one of which the majority of boxers nowadays would be willing to have their roofs caved in.

First—There is the \$17,500 which becomes his property the minute he slips from his bathrobe and steps onto the resin.

Second—There is the almost certainty that he will be accorded the middleweight championship by popular acclaim if he wins.

Third—There is the glory, if he wins, of being the only boxer of his kind in the world—a boxer who after long absence from the ring came back and defeated a man who was admittedly the best of his class in the country; in short a "comeback."

Some purse! Aye, Aye. Jim Corbett and Jim Jeffries tried to come back after several years' absence. So did a lot of others. And they all got the same thing—an epitaph on their pugilistic tombstone which gave the information that he had been a great fighter in his day.

Packey left the ring weighing around 137 and 138—his best fighting weight. In his two years of running breweries and automobiles he has added probably 20 pounds. He only wants 10 of it off. That is going to leave 10 there that can be said to be an accumulation of two years' idleness. He doesn't need it, and before he has stepped thirty minutes with a man as shifty as Mike Gibbons, is, it's a safe bet he's going to wish he didn't have it.

Veteran ring men can't see Packey's chances at all. They base their assertion that the Stockyards wonder is in for a lacing on the fact that no boxer ever has come back,

and on the fact that Packey hasn't been boxing very much in the past two years, whereas the Shadowlike Mike has been fighting pretty steadily in that time.

"A man can't fight unless he's been fighting," said an old ring man today. "It doesn't take two years for a man to lose his judgement of distance and his hitting eye when he's not in the ring. Didn't I sit in Carson City and see Bob Fitzimmons put the old smack on Jim Corbett, simply because Fitz had been fighting for two years steadily where Jim had been idling? Fitz's condition wasn't any better than Jim's, but his eyes were."

"Again, Packey is going to meet a man in Mike who is at the zenith of his power. The St. Paul lad has been coming up for six years and he's now at the top of his career. Packey was at the top of his when he left the ring.

"Yes, we'll admit that Packey has

lived a mighty clean life. He hasn't boozed nor smoked nor any of that stuff. Neither have a lot of other young chaps, but they couldn't stand 10 rounds of Mike Gibbons' game at that.

"But she's going to be a bird of a scrap anyhow, isn't she?"

"That's what all New York thinks that she's going to be a bird of a scrap."

Ralph De Palma, Twice Champion is Again The Favorite—Plenty of "Dark Horses"

CHICAGO CLUB EVENT TODAY

Course Has Been Practically Rebuilt
Although The Hills Remain
Giving Variety

COOPER LEADS AT 100.

(By United Press.)
Speedway, Elgin, Ill., August 20.—Cooper's Stutz was leading at the 100-mile mark in the 300-mile classic this afternoon. His time was 76:65.8. Anderson was close second, Alley third and Oldfield fourth.

Elgin, Ill., Aug. 20.—With a bunch of crack drivers bursting with confidence and several "dark horses" out to make a rep, Starter Fred Wagner got the first of the annual Elgin Auto Road Races under way promptly at 11 a.m. today over Elgin's famous eight mile circuit.

The races which have gathered together road champions of former years, are considered the country's class of road races.

Ralph De Palma, twice road champion, is favored to cop again, if he has an even break of luck. He will be given a close run for the prizes by Earl Cooper and Ralph Mulford, road champs in 1913 and 1910 respectively, are entered and expect to win.

For the first time in auto racing history, "also rans" will have a chance to come in on the money. To every driver finishing 100 miles will be given \$100 and \$200 to every driver finishing 200 miles. The distance to be run is 301 miles. Today's race is for a purse of \$3,000 and a cup trophy offered by the Chicago Automobile club, under whose auspices the race is being held.

Tomorrow's race will be for the Elgin cup and a \$3,000 purse with the same chance for drivers picking up some of the odd change for finishing distances. This race will also be for 301 miles.

An air flight was given preceding today's race by De Lloyd Thompson.

One of the features at the races will be the monster Pendleton score board. Forty four assistants, including telephone girls, are required to keep spectators informed as to positions of cars during the races.

The course has practically been rebuilt around the entire circuit; although the slight hills and contours have been left to give variety and make it a true road race.

HORSE WINS TWICE IN AS MANY DAYS

Frank Lindsay Performs Remarkable Feat With Diameter at Connerville Fair.

OTHER HORSES IN THE WIN

Rushville drivers and horses did fairly well at the Connerville fair yesterday. Frank Lindsay, driving Diameter, came back yesterday after driving the horse to first money the day before and won the 2:30 pace.

Lindsay won the race in straight heats, the best time being 2:17 in the second heat. Lindsay's feat was considered remarkable in view of the fact that the horse had won the day before.

Mary Minerva, owned by John Frazier, won third money in the 2:30 pace and Lady Hyatt, driven by Everett Piper won fourth place in the same race.

A large crowd of Rushville and Bush county people attended the fair there yesterday. The Indiana and Cincinnati traction companies

came by boat from New York going via the Panama canal. A special train from Chicago to the coast brought the middle western delegates.

DRACK DRIVERS IN ELGIN RACES

FOR HIS SHARE

Now Known as Most Popular Athlete at De Pauw University—Is Wonderful Driver

HOLES CONFERENCE RECORD

Latest Accomplishment Was to Finish Third in A. A. U. Meet at San Francisco

(By United Press.)

Greencastle, Ind., Aug. 20.—When De Pauw university opens in September the athletic stars of the Methodist school will have their popularity dimmed by a little fellow who entered three years ago unknown and unsought among the freshman group. He was not an athlete in looks, being only five feet six inches tall, lean and lank and narrow chested. Today this "little fellow" is probably the greatest athlete De Pauw ever produced. He is Ivan Myers, conference champion in the mile, and winner of third place in the same event in the athletic games at the San Francisco exposition this summer in competition with the best athletes in America.

Myers he is known as "Ikey" here is no more athletic looking than when he entered but he has produced the gods on the cinder path. The life history of few athletes is more interesting. Myers was born and raised at Carmel, Ind., though his parents now live at Garrett. While in high school Myers was interested in athletics but not accounted a star even in his own high school. His favorite event was the quarter mile but on account of illness during his senior year he never even got an opportunity to show his speed in the state meet. For that reason he was not sought by the colleges of the state.

Not until in an inter-organization track meet near the close of his freshman years was Myers known to the coaches. Competing with the star men of the varsity he outlined them all and brought himself into notice as an athlete worth watching.

In his second year at College Myers was entered in a number of the Secondary College meets in Indiana and was not defeated but still he was not considered fast enough for the classy company of the big nine schools.

When John Nicholson, former Olympic man, came to DePauw last spring as coach, he saw hidden possibilities in the little blond runner and entered him in the dual meet with Wabash college. The Presbyterians were considered as having some rather speedy distance men but Myers ran away from the whole field in the half mile, mile, and two miles and then trotted to the gymnasium five squares away.

It was in the state meet that the De Pauw star got into the athletic limelight. Competing with the crack runners of Purdue, Notre Dame, and Indiana, he won first in the mile and half mile, breaking the state record in the former.

The next step in the athletic career of Myers was at Champaign Ill., in the Western Conference meet when he set a new mark in the mile and took second in the half mile thereby placing his comparatively small school in sixth place in the meet.

The latest accomplishment of the long unknown runner was in the A. A. U. championship meet at San Francisco, when under the colors of the Illinois Athletic Club, he won third place in the mile run.

He is the first runner to win the

Harvard at Frisco

(By United Press.)

San Francisco, Aug. 20.—One thousand undergraduates and alumnus of Harvard university are here today to attend the convention of the Associated Harvard Clubs of America. The far Eastern delegates came by boat from New York going via the Panama canal. A special train from Chicago to the coast brought the middle western delegates.
